

Desai Dhyan

Frontend Developer (MERN)

Email: dhyand86@gmail.com | Phone: +91 9601141469 | Location: Nadiad, Gujarat

Live Project: <https://audioloom.onrender.com>

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in creating responsive and interactive websites using modern web technologies. Strong in converting design files into pixel-aligned user interfaces and writing clean, maintainable code.

Practical exposure to full-stack MERN workflows including authentication, API integration, and production deployment. Focused on performance, accessibility, and clean component structure for real-world business use cases.

EXPERIENCE

Frontend Developer

Creative Werk Designs | 2026 - Present

Joined as a fresher and currently working on responsive client websites, page sections, and frontend UI improvements.

- Built and maintained responsive landing pages.
- Converted Figma designs into semantic HTML/CSS layouts.
- Implemented reusable JavaScript interactions for improved UX.
- Collaborated with designers and teammates to deliver production-ready pages on deadlines.
- Improved UI consistency by standardizing spacing, typography, and reusable section patterns.

MERN Stack Intern

Pooja Infotech, Vadodara | January 2025 - April 2025

Completed a 3-month internship focused on MERN stack development at Pooja Infotech, a Vadodara-based web solutions company providing website development, web hosting, SEO, and digital marketing services.

- Worked on React frontend modules and integrated backend APIs.
- Contributed to authentication and product-related full-stack workflows.
- Built the AudioLoom MERN project as a core internship deliverable.
- Practiced REST API consumption, state handling, and backend route testing.
- Worked with team guidance on deployment and real client-style project delivery flow.

EDUCATION

Bachelor of Engineering (Information Technology)

Sardar Patel Engineering College, Gujarat Technological University | 2025

Graduated with **8.28 CGPA, First Class with Distinction**.

- Built strong fundamentals in Data Structures, DBMS, Web Technologies, and Software Engineering.
- Completed practical projects focused on modern web development and deployment.

PROJECT HIGHLIGHT

Location: Nadiad, Gujarat

TECHNICAL SKILLS

HTML CSS JavaScript React
Node.js Express.js MongoDB
REST API Basic PHP
Figma to HTML Responsive Design
Git Postman
Deployment (Render)

HIGHLIGHTS

- Strong understanding of modern frontend fundamentals.
- Focused on clean UI structure and maintainable styling.
- Comfortable working in collaborative team environments.
- Hands-on with MERN architecture from frontend to backend integration.
- Able to own modules from design handoff to deployment.

CORE COMPETENCIES

- Problem solving and debugging in real project scenarios.
- Responsive and mobile-first interface development.
- Clear communication and team collaboration.
- Continuous learning and iterative improvement.

AudioLoom

MERN Full Stack Project

Built during my MERN internship period and later enhanced as a full-stack portfolio project with production-style architecture.

Includes authentication, OTP-based password reset, profile update, product catalog, cart, checkout, and order workflows.

Tech: React, Node.js, Express.js, MongoDB, REST API

Live: <https://audioloom.onrender.com>

- Implemented full user journey from registration/login to checkout and order confirmation.
- Designed reusable UI components and responsive layouts for desktop and mobile views.
- Integrated backend endpoints for products, user profile, orders, and summary operations.
- Handled token-based auth flow and OTP password reset process.
- Deployed and tested production build on Render.
